

TRUEMATT® BOARDS

TrueMatt® Boards are the latest innovation in the furniture industry offering revolutionary technical features at a very affordable price. TrueMatt® Boards are a product with a supermatt, silk-touch, antifinger-print, scratch & chemical resistant, antibacterial, UV-resistant, waterproof PET film in 4 timeless colours – white, cashmere, grey and black. The absolute highlight of the surface is its ability to be repaired via a thermal healing process meaning microscratches can easily be removed using a household iron. For greater flexibility and cost reduction TrueMatt® Boards are available in two core options - MDF and melamine faced chipboard, both at 18mm thickness. This makes our boards a great alternative to other supermatt boards on the market - including lacquered and laminated boards.

Due to the fact that we are the first company that produces furniture profiles and door elements using the same revolutionary surface, our partners can assemble 5-piece doors and interior doors that look and feel the same.

SURFACE	PET film
BOARD DIMENSIONS	2800x1300 mm (MDF) 2800x1055 mm (MFC)
BOARD THICKNESS	18,5 mm (MDF) 18,3 mm (MFC)
CORE OPTIONS	MDF (E1 E05 CARB Phase 2 F**** FSC), MFC
CORE THICKNESS OPTIONS	18 mm (standard) other thicknesses (upon request)

DECORS

Extra White 9016

Cashmere 5304

Just Grey 6000

Perfect Black 9004

ADVANTAGES

SCRATCH RESISTANT

Enhanced scratch resistance formula - significantly higher than standard matt surfaces

SMOOTH SILK TOUCH

Excellent supermatt surface quality results in pleasant and smooth silk touch feeling

SUPERMATT

Surface is supermatt that ensures extremely low light reflectivity - even at low angle

NO FINGERPRINTS

No fingerprints. Even if greasy hands leave fingerprints, these can be cleaned easily with a moist cloth

CHEMICAL RESISTANT

Surface is chemical and stain resistance making it ideal for kitchen fronts

WATER RESISTANT

Water cannot penetrate the core through the surface

UV RESISTANT

Increased UV resistance means the surface will remain the same in time

EASY TO CLEAN

Scratch and chemical resistance of the surface means the board is very easy to clean with common detergents

THERMAL HEALING

Micro scratches can easily be repaired using a household iron

ANTIBACTERIAL

Surface has improved antibacterial properties for hygienic everyday use

APPLICATIONS

FRONT ELEMENTS

FURNITURE

INTERIOR DOORS

WALL & CEILING PANELS

DELIVERY OPTIONS

2-SIDED MDF BOARD

Both sides are the same material - PET film

1-SIDED MFC

Front side is PET film, while the back side is colour-matching melamine paper

FURNITURE COMPONENTS

Ready furniture components with matching or suitable edgings

DOOR ELEMENTS & PROFILES

Due to our company's foil wrapping capabilities, our TrueMatt® Boards are further complemented by door elements and profiles that use the very same supermatt surface. This enables architects, designers & furniture producers to have all the necessary materials in colour matched uniformity for building highly appealing, modern, durable furniture and interiors. Below are a few examples of the many door elements and profiles that feature the same TrueMatt® surface.

In order to provide complete solution for interior passage doors, we offer edging that is suitable for the purpose. The edging is with dimensions 0,8/44 mm & 0,8/45 mm.

Door Sill P-006

Door Sill P-007

Profile P-001

FIVE-PIECE CABINET DOORS

Five-Piece Cabinet Doors made from TrueMatt® Boards and TrueMatt® Profiles P-001

INTERIOR DOORS

Interior Door made from TrueMatt® Boards and TrueMatt® Door Frame Style and TrueMatt® Profiles P-006 and P-007
